

AXIS

AXIS WAKE RESEARCH 2011

GO AHEAD K.I.S.S. THE SKY

We know all you want to do is look good while you ride, so we're keeping it simple with style and performance in 2011. Thanks to feedback from the growing army of Axis A22 owners we not only developed an entirely new model in the A20, but also added to our functional set of features and options. Our axis of symmetry remains centered on riders and their families with uncomplicated style and big wake performance—all at a price point.

STYLING

At Axis, we don't try to be everything to everybody, like some boat manufacturers. Axis Wake Research loyalty lies with riders and their families, and we make no apology for that. We build for riders who demand more—more wake, more space, more style—for less money.

A2 A20

AXIS WAKE RESEARCH EVIL TWINS

Two rides; same style. The A22 and new A20 are undeniably sick looking rides, featuring aggressively angular bows, shards of colorful gel coat accents, and a one-of-a-kind rear sweeping wakeboard tower that is as easy on the eyes as it is to collapse. The Wingless Windshield accentuates the functional simplicity of the A22 and A20 with a custom look exclusive to the Axis Wake line of value-class boats, enables easy, seated driver access to the dock.

We've with you all the way. The Axis lifestyles are for athletes and their families in search of fun on the water. Whether wakeboarding, waterskiing, wakeboarding or just hanging out, the entire Axis product line is designed for all of the above.

The wakes on the A20 and A22 serve up amazing performance at entry-level prices. These aren't older hull designs repurposed for a new market. The Axis Wake Research Team assimilated feedback from dealers, owners and athletes and then designed these boats from scratch to excel in precise handling with well defined pro-level wakes.

A22

WAKES

A20

THE A22 AND A20 WAKES ARE CLEAN AND SOLID. They work for anyone, from beginners to the world-class riding level of pros like Randall "The Vandall" Harris and Keith Lyman. The consistent shape caters to a variety of riding styles.

SIMPLY FUN

A22

RUN AND TELL THAT

Keeping simplicity in mind, the A22 and new A20 wakeboard boats from Axis are in tune with the riding lifestyle without an inflated price tag. The simple, but effective design and comprehensive approach to wake-specific engineering brings power to the people. You are only as limited as your imagination.

A20

WE HATE THE WORD CROSSOVER

Keith Lyman says, "The wake is all around world class! . . . great for ridin' big or for just poppy wake to wake riding." At the same time, this boat produces a nice flat table for slalom skiing. Translation: this boat is made for multi-discipline fun and at a mere 20 feet long, it's easily towed and stowed. Features shared with the A22 include Skybox seating, Available Plug N Play ballast, colored LED under-seat illumination, the available ChillAX walk-through seat and more. The A20 has the capacity to hold 11 people and the wakes to satisfy the most dedicated riders. So yes, even though the recreational skier would be stoked on this wake, the A20 has been designed for the wake sports.

the A22

Wakebox 800/900 ballast system

AXray kick panel

Indmar/Axis AR335 MPI engine

A20

A22

THE ORIGINAL, THE BOSS

There is no other wake of its kind—period. Like the A20, the A22 includes everything you want in a wakeboard boat, and some things you didn't even know you wanted, at a price that won't slam your budget. Randall "The Vandal" Harris says "Axis has made wakeboarding affordable without sacrificing wakes or quality." Harris rides with passion for the sport, not to satisfy judges—a quality he brings from his skateboarding background.

A20

KEITH
LYMAN

The Axis Wake Research Pro Team is known for their unique riding styles, their dedication to the sport and clean living. Keith Lyman and Randall "The Vandall" Harris fuse the biggest, most stylish riders of the East and West Coasts to represent the industry's fastest growing wakeboard boat brand.

RANDALL
HARRIS

A22

A silver SUV is towing a blue and black speedboat on a trailer down a paved road. The scene is set at sunset, with a golden sky and silhouetted trees. The boat has a wakeboard tower and is mounted on a blue trailer. The SUV has a spare tire on the back.

OWNERSHIP

REST
EASY

Hit the road feeling good about choosing the boat that is perfect for your family's needs and budget. Axis Wake Research's Limited Lifetime protection is segment-leading. It comes complete with a 3-year engine warranty including fuel and electrical systems, a 1-year bow to stern and additional year of warranty covering parts. All that's left to focus on is the fun.

RECON Team

We have developed an elite team of riders who represent Axis on a regional stage, promoting the brand at a grassroots level. These guys live to ride and are ambassadors for our sport and our brand.

Southeast: Dustin Middlebrooks
East: Mike Brown
Midwest: Nick Cankar
West: Josh Twelker, Trever Maur

Don't lose touch. Contact us directly and find out what's new with us through our Axis Wake Research web activity, including Facebook, Twitter, Flickr and YouTube, as well as our retail web site. To learn more visit www.axiswake.com.

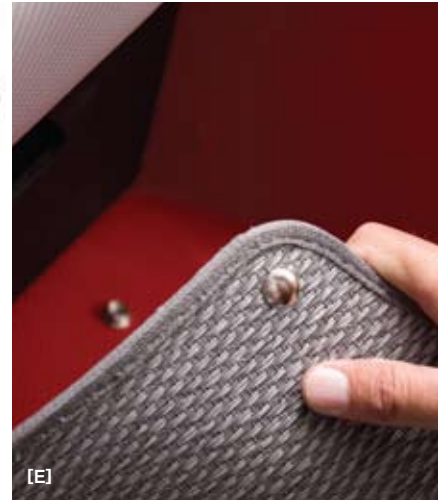

SWAG

Represent the Axis Wake brand on and off the water with exclusive swag. Mixing the latest trends in active wear with the Axis eye for style, we have produced a stylish line of Axis clothing and accessories for 2011. Surf swag.axiswake.com and cover yourself in Axis Wake steeze.

[A] Axis offers a rear ski/tow pylon as an additional towing connection point. Get your sverve on! [B] Add a rear-facing observer with ChillAx seating, and a forward facing bow seat! The cushions in the walk-through leading to the bow are split and supported with stainless hinges so they can be pulled upright when the situation demands back support. [C] The Axis/MTX tower speaker sound hits like a bullet and looks like one too. The enclosures are sleek and sturdy with specially engineered integrated clamps and a tough hard exterior. Keeps you rockin' even at the end of a rope. [D] Flip a switch to turn on the underseat glow of optional LED lighting in your choice of 3 colors. [E] The removable carpet insert from Axis offers the comfort of plush feeling rubber backed marine carpet. If you prefer the simple grace of a Japanese-style Tatami floor, opt for the snap-out Axis Tatami mat pictured here. [F] The available Sony CDX-H905IP Stereo is feature rich. The high-contrast splashproof face of the stereo allows for excellent viewing in direct sun. Switch between red or blue illumination to match your boat. A marine CD receiver with a built-in amplifier (17 watts RMS/52 Peak X 4 channels), this deck spins burned CDs populated with MP3, WMV or AAC files as well as a standard music CDs for hours of tunes. The Axis Sony Stereo also offers iPod® connectivity and control with the included 3 meter USB cable.

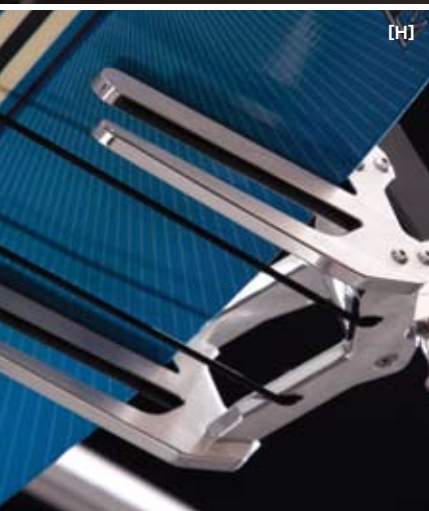

[G]

[I]

[K]

[H]

[J]

[L]

[G] Axis docking lights are made up of 9 high power, bright white LEDs. This illumination is focused at dock-level for those late night returns to the marina. [H] The new Axis Spinner Combo Rack can hold a wakeboard and a thicker wakeskate or surfboard on each side. [I] This trailer-able Axis option shades your interior like a bimini with heavy-duty construction that can support the weight of your water toys when they are not in use. It is perfect for storing 3 additional wakeboards or even a tube completely out of the way. [J] The exclusive Axis Auto Set Wedge lets you add an additional 1000 pounds of displacement on top of the A22's other available ballast. The Auto Set Wedge can be deployed through an access hatch in the standard fiberglass swim step. A simple pinch of the clips and the Auto Set Wedge is ready for wake-making. [K] Axis Wake Research has developed custom non-skid pads branded with the Axis logo to create more traction where you need it. When you opt for the Deck Trac package you'll find non-skid pads on the bow deck for people getting on and off from the TriAX bow, on the gunwale deck for boarding on either side of the boat, and you will find a non-skid pad on the transom to protect the back of your A22 from rogue boards. [L] We've thought of everything. The available Axis Wake tower mirror includes a built in bottle opener.

Vandall Edition Package:
 This boat comes with every option Randall himself chooses for his personal boats, as well as unique graphics. Includes: Vandall Edition graphics, high altitude prop, pop up cleats, flip-up driver's bolster, swivel driver's seat, battery isolator switch, ChillAX seat option, docking lights, under-seat lighting, bimini top, custom cover, swivel wakeboard racks, the exclusive Vandall carpet insert, our new Deck-Trac non-skid pads, Stereo Option II, Plug N Play Ballast upgrade, Auto Set Wedge, depth finder, heater, and even the tricked trailer package!
